Design 1998

### Care and Maintenance Instructions

To obtain the best performance from your new lamp please follow these instructions.

Changing the Bulb: To change the light bulbs, please do the following.

1. Unplug the lamp.
2. The shade can be removed by twisting the shade in an upward direction from the base. Bulb types for each size are the following:
  - Elise 12 - Use only a 25 watt maximum torpedo bulb\*.
  - Elise 18 - Use only a 40 watt maximum T-10 bulb\*.
  - Elise 32, 48 & 60 - Use only a 75 watt maximum Par 30 bulb\*.
  - Use only a 90 Watt Par 38 Spotlight bulb\*.
3. To replace shade, twist and push the shade back on.

**\*Do not exceed recommended wattage. Using a higher wattage bulb will risk burning the polycarbonate shade.**

## **Elise Lamp 12"/18"/32"/48"/60"/80"**

Cleaning: To keep your Elise Lamp clean, simply wipe with a damp cloth. The shade is washable with soap and water.

### **Troubleshooting**

Shade Fitting Too Tight: If the shade is proving difficult to remove and mount, lubricate the O-ring with a very small amount of chapstick or soap. If you use soap, simply place a small amount of soap on your fingertip and rub around the outside of the O-ring.

If The Lamp Does Not Work: Please follow these instructions.

1. Light bulb may have loosened during shipping. Make sure light bulb is screwed in properly. Check to see if lamp works.
2. If lamp continues to not work, change out with a new light bulb. If after that the lamp still does not work, you may have a faulty cord set/socket. Please notify Pablo for a repair/return instructions.
