Care and Maintenance Instructions

To obtain the best performance from your new lamp please follow these instructions.

Replacing the Bulb:

1. Unplug the lamp.
2. To change the bulb, remove the tubular glass guard by simply twisting it off. Once you remove the burnt bulb install a new one. Use only a 35 watt maximum GY6JCD Bi-pin bulb; otherwise the lamp will not work. (Note on halogen bulbs: do not touch the bulb with your fingertips; use a rag or small piece of plastic when installing.)
3. Once the bulb has been replaced place the glass guard back on and then place the aluminum shade on top.

Cleaning: To keep your Piccola Lamp clean, simply wipe with a clean damp cloth.

Troubleshooting

If The Lamp Does Not Work: Please follow these instructions.

1. Light bulb may have loosened during shipping. Make sure light bulb is pushed into the socket properly. Check to see if lamp works.
2. If lamp continues to not work, change out with a new light bulb. If after that the lamp still does not work, you may have a faulty cord set/socket. Please notify Pablo for a repair/return instructions.

If there are any additional questions regarding your Piccola Lamp, please contact us directly.
