SOLIS™

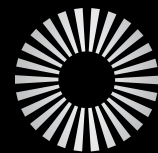

SOLIS Collection

SOLIS, is an innovatively simple and elegant suspension lamp that can be used as a pendant, hung from a wall, or as a freestanding portable luminaire to create a distinctive ambiance. Evoking a sense of weightlessness, SOLIS is an engaging blend of light and shadows filtering through its laser-cut streams, radiating patterns that resemble the sun's rays.

SOLIS features a soft and light-weight polyester fabric that is held in tension between two polished nickel-chrome steel rings, providing both direct and diffused light to enhance any environment. SOLIS is especially striking when grouped in multiples.

Newly added SOLIS Freestanding models feature a suspended shade over a portable tri-pod base. An extra long cord with carrying handle is provided to allow for maximum portability throughout any space.

Design: Carmine Deganello 2009 / 2010

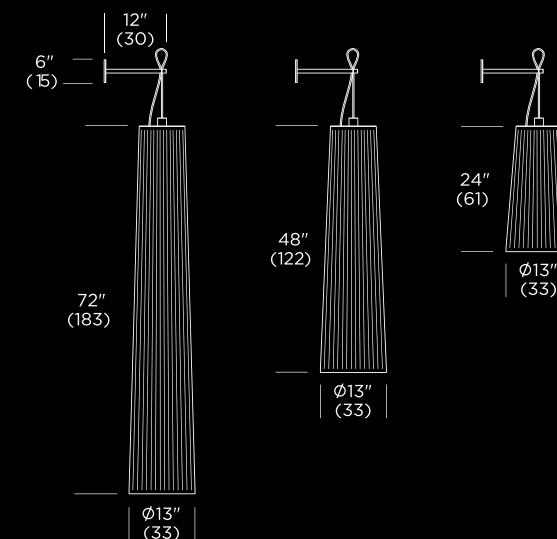

SOLIS Suspension

FEATURES
